

From October to December of 2020, the last term of the year, we welcomed **10 international artists** to our hybrid program holding physical events and activities and adapting those to the virtual world as well, in order to make use of the new opportunities in a constantly changing world. GlogauAIR's team is really proud to keep transforming and adapting the international artists residency program founded in 2006 to the new scenario the culture field is facing.

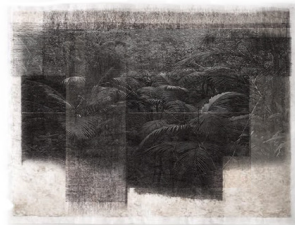

The 4th edition of **[Virtual] Open Studios** is forthcoming and the resident artists are ready to show their work. The **[Virtual] Open Studios** will start Friday, **December 18th 2020** and will remain on our [website](http://www.glogauair.net) until **January the 3rd 2021**. GlogauAIR keeps supporting artists globally, making connections and helping with the projects even in these difficult times by keeping up with a hybrid methodology between the physical and digital format.

About GlogauAIR

Chema Alvargonzalez was the founder of GlogauAIR (Jerez de la Frontera, 1960 - Berlin, 2009). In Berlin, he experienced the fall of the Wall and was part of Künstlerinitiative Tacheles. Further, he introduced many incoming artists to the city and its artistic scene. This was formalized when he founded GlogauAIR in 2006 in the same building that is still hosting the residency today.

GlogauAIR was created as a meeting point between artists from all disciplines and is focused on the principals of exploring, creating and exhibiting. The Residency offers 13 studios to international artists who during their stay participate in the Residency Program which offers support and the possibility to take part in diverse activities, to help them in their professional careers.

Every three months, at the end of the Residency Program, GlogauAIR opens its door to the public. For the **Open Studios Exhibition** artists transform their studios into an exhibition space. Furthermore, since we established our on-line Residency Program, the Open Studios exhibition has also been expanded to a virtual edition, which is hosted in our website. Sharing the Open Studios event, the Project Space hosts an exhibition from either an invited artist from Berlin -Berlin Guest Resident- or a collaboration with Institutions, adding value to GlogauAIR's project by providing exchange and dialogue.
