

From January to March 2021, GlogauAIR has been happy to initiate the year with a new term of Artist Residencies. Despite the current pandemic, we have had the honour to welcome international artists and one artist as our Berlin Guest Resident. Alongside our in-person residency we have developed a virtual programme, allowing artists to join us in an on-line residency. In doing so, we have been able to make the most of the new digital opportunities we have seen arise during 2021.

GlogauAIR's team is proud to transform and change with the world around us: keeping it possible to welcome international artists not only today but during the whole covid-19 crisis, much like we have been doing since we began in 2006.

The 5th edition of **[Virtual] Open Studios** is forthcoming and our Resident Artists are ready to show their work! Starting on Friday, March 19th 2021, the [Virtual] Open Studios will launch and remain available on our website until the 4th of April 2021. With this virtual edition, we want to keep supporting artists and help showcase their work both locally and internationally.

Artists in Residence

In these particular times, GlogauAIR has been a gap between space and time, a safe space, where the Resident Artists have been able to bring to life their new creations. We can find infinite depth in **Adi Oz-Ari's** (Israel) conceptual collages and experimental prints, to then lose ourselves into the intimate Novels and drawings of **Julia Hannafin** (United States), and re-emerge into the chaotic dystopian realities of **Yves Hänggi's** (Switzerland) paintings. **Lucas Ngo** (France) brings us into his landscapes of bodies, where the line between figuration and abstraction is blurred. **Mariona Berenguer** (Spain) enters GlogauAIR as Berlin Guest Resident, to bring us into her multidisciplinary travel from light to darkness.

Adi Oz-Ari
(Israel)

Julia Hannafin
(United States)

Lucas Ngo
(France)

Yves Hänggi
(Switzerland)

Mariona Berenguer
(Spain)

The Catalogue's Cover

Starting with this edition we are giving our resident artists the opportunity to design the Catalogue's cover. After receiving various proposals from the Resident Artists, a jury formed by every team member at GlogauAIR selected "*Raw Material*" by Yves Hänggi. The harsh colours and the anonymous body painted on an old poster are a reminder of the always-changing visual landscape of Berlin: its graffiti and murals that add continuously to the scenery of the city where GlogauAIR has been living, developing and welcoming artists for fifteen years.

For more information about the event or any of our resident artists please contact us at:

About GlogauAIR

Chema Alvargonzalez was the founder of GlogauAIR (Jerez de la Frontera, 1960 - Berlin, 2009). In Berlin, he experienced the fall of the Wall and was part of Künstlerinitiative Tacheles. Further, he introduced many incoming artists to the city and its artistic scene. This was formalized when he founded GlogauAIR in 2006 in the same building that is still hosting the residency today.

GlogauAIR was created as a meeting point between artists from all disciplines and it is based on the principles of *exploring, creating and exhibiting*. The Residency offers 13 studios to international artists who during their stay participate in the Residency Program, which offers support and the possibility to take part in diverse activities aimed to help them in their professional careers.

Every three months, at the end of the Residency Program, GlogauAIR opens its doors to the public. For the **Open Studios Exhibition** artists transform their studios into an exhibition space. Furthermore, since we established our on-line Residency Program, the Open Studios exhibition has also been expanded to a virtual edition, which is hosted on our website. Sharing the Open Studios event, the Project Space hosts an exhibition from either an invited artist from Berlin -Berlin Guest Resident- or a collaboration with Institutions, adding value to GlogauAIR's project by providing exchange and dialogue.
